ABOUT ME

What started out as a passion over 5 years ago has succeeded in being my career. I've worked on multiple projects with startups and companies in the web2 space as a mobile and web developer. Now I'm fully dedicated to creating a meaningful impact in the web3 space.

EXPERIENCE

Treegens, USA — Lead Developer

JUNE 2025 - PRESENT

treegens.app

Led the blockchain development of a tree verification and rewards platform where AI counts plants from planter submissions and decentralized verifiers approve them for MGRO token rewards; Surpassed 100M plants recorded by planters as of August 2026.

Clynto, USA — Blockchain Developer

JULY 2024 - SEPTEMBER 2024

clynto.com

Built the smart contracts for a P2P lending and borrowing protocol, enabling loan creation, funding, repayment, and liquidation across multiple tokens; Powered by a governance system utilizing CLY tokens for voting.

BuidlGuidl, USA — Blockchain Developer

MARCH 2023 - PRESENT

ETH Mobile

ethmobile.dev

Built an open-source toolkit for building mobile decentralized applications seamlessly using React Native & Foundry/Hardhat.

Yield: A Liquid Restaking Protocol

github.com/ValentineCodes/yield

Built a decentralized protocol which enables users to stake stETH into Eigenlayer to earn extra rewards. Admins(a multisig wallet) can delegate and undelegate to an operator and also withdraw assets.

SKILLS

Solidity

Typescript

React Native

Next.js

TailwindCss

Redux

Firebase

Git | Github

ACHIEVEMENTS

Top 10 in Gitcoin x Lukso Grants Program with Kitso - a variation of ETH Mobile for Lukso

Gitcoin Grantee with ETH Mobile

BuidlGuidl Hackathon Winner with Universal Profile Extension

EDUCATION

Nnamdi Azikiwe University, Nigeria — Computer Science

OCTOBER 2017 - DECEMBER 2023

DevRel University by Bianca Buzea

OCTOBER 2024 - DECEMBER 2024
